National

mature –

enrollment

condition

STONEMASONS – after they passed finals they have to pass differences - about 20 subjects (only 2 students did it)

STONEMASONS = STONEMASONS TECHNICIANS

STONEMASONS = STONEMASONS TECHNICIANS ≠ GYMNASIUM

National matura is adapted to gymnasium (middle school)

- We have to prepare our students for enrollment – extra classes for mathematics, croatian language, english language and some optional subjects like physisc, informatics, chemistry ...

Optional subjects of new curricula (physisc, chemistry) had been choosen to help student to prepare for national matura
Good chance for advancement we see in students mobility during the education and after - specialities

Also we would like to offer that possibility to others

Competences Centre/ Centre of excelences
Top view is some kind of plan of complete technological process from cutting, shaping, polishing, water reusing...
Stone processing machines

We want our students to be prepared for labour market

Also we want our students to be guidance to future employers – equipment buying and usage
THE MISSING LINK

Montserrat of manufactured stone

STONE PLACING COURSE CURRICULUM

Lider partner: CTM, Spain

Deliverable number: 2.1
Title: STONE PLACING COURSE CURRICULUM
Type of outputs / products / results: Curricula and virtual environment

Description (limit 1000 characters):

Author: CTM

Project acronym: STONEPLACING  Project

Task 2.1.2. TEMPLATES

3/31/2016

Education programs stonecutter and professional vertical in Croatia
Placing of stone

New school “product” or offer

New speciality

Possibility to continue studying for students and adults to specialize in that competence

To protect stone from degradation because of inappropriate placing – stone durability strongly depends on that final phase

One of the way to promote stone as a good and desirable material
Croatian architects and designers (mostly) prefer other materials (concrete, glass, wood, different new materials...)

UPGRADING VOCATIONAL EDUCATION IN DESIGN STONE AT SECONDARY LEVEL IN CROATIA

KLESARSKA ŠKOLA

STONEMASONRY SCHOOL

Ljubljana 13th - 17th 2016
There is no institutional education in stone design in Croatia

Not at the secondary level

Not at the higher level

It is individually and rare (sculpting, aplicable art..)
Thank you for your attention

Tamara Plastić, Klesarska škola
